

KID'S CULTURE

NEWSLETTER

Hello Families,

As you have seen we are already beginning to add some of our new playground structures! This year we are using Kid Cushion playground Certified wood chips in our play spaces. This is used specifically to cushion falls from play equipment.

We are super excited to have Grandparent's Day this month! On Grandparent's Day your child can bring all or some of their grandparents to come and do a special activity with them at their school. We will have coffee and pastries in the morning for them, and then they will join the kiddos in their classes, and then head outside to play if they would like.

A couple more notices; Stephanie will be gone from May 1-May 10th. Please be sure to contact Erin during this time as she will not have Cell communication. Also don't forget we are closed May 27th for Memorial Day.

Blessings- Stephanie & Erin

HAPPY MOTHER'S DAY

Family Corner

Tick Season

The ticks have already begun to come out. We have not had any kiddos with them yet at the Center but we want you to know how we deal with them when they do.

1. The child will be brought to Stephanie,
2. She will then use tweezers from our First Aid kit, and remove the tick,
3. The spot where the tick was located will be cleaned with soap and water,
4. You will be notified via Kid Report that they had a tick,
5. We will send the tick home in a baggie with you if requested,
6. If the head does not come out during removal we will call you to let you know so you may decide to bring them to get it removed.

How soon after a tick bites on can they begin to spread infectious diseases? Answer through email to be entered to win this month's prize!

Old Wives' Tales: Did you know these are not recommended to use for tick removal? The above method is the safest and only way that ticks should be removed.

April Activities

May Activities

Week 1- May Flowers
